

# Licensing FAQ

## How can I purchase Windows Intune through an Enterprise Agreement?

The Enterprise Agreement (EA) is the best licensing program for organizations with more than 250 users or devices. The EA gives you the flexibility to choose among on-premises software and online services to best suit your user needs and help you optimize your technology spend. Contact your Microsoft account manager or local reseller for more details, or visit [Microsoft Volume Licensing](#).

SKU	Definition	Availability	Price
<b>Windows Intune</b>	User Subscription License (USL) including Windows Intune cloud service, System Center Configuration Manager and Endpoint Protection in a single SKU.	Enterprise Agreement (EA), EA Subscription (EAS)	US\$6 User/Month
<b>Windows Intune Add On for ConfigMgr &amp; Endpoint Protection</b>	User Subscription License (USL) for Windows Intune cloud service available as an add-on for existing System Center Configuration Manager and Endpoint Protection customers.	EA, EAS, and Enrollment for Education Solutions (EES)	US\$4 User/Month

## How can I purchase Windows Intune through the Microsoft Online Subscription Program?

The Microsoft Online Subscription Program (MOSP) is designed specifically for organizations with less than 250 users or devices. With MOSP, you can easily subscribe, manage, and deploy your Windows Intune services online. To subscribe, please visit [www.microsoft.com/online](http://www.microsoft.com/online).

SKU	Definition	Availability	Price
<b>Windows Intune</b>	Device Subscription License (DSL) including Windows Intune cloud service, System Center Configuration Manager and Endpoint Protection in a single SKU and rights to the latest version of Windows Enterprise.	MOSP	US\$11 PC/Month

## Is System Center Configuration Manager included with Windows Intune?

Windows Intune includes the use rights for System Center Configuration and Endpoint Protection. Windows Intune Add-on for ConfigMgr and Endpoint Protection is available if you already own System Center Configuration Manager and Endpoint Protection.

### What if I already own Windows Intune?

Existing customers may continue to use the Windows Intune service (including new features) under the terms of your existing agreement for the duration of the subscription. You do not need to make a choice to adopt the new licensing model until the end of your subscription term.

SKU	Definition
<b>MOSP</b>	<ul style="list-style-type: none"> <li>Customers may renew into Windows Intune</li> <li>Customers will be granted ConfigMgr use rights through duration of their existing subscription</li> </ul>
<b>EA, EAS, &amp; EES</b>	<ul style="list-style-type: none"> <li>New offers do not include Windows SA so customers renew Windows SA under their desktop enrollment</li> <li>Customers may renew into Windows Intune</li> <li>If you own ConfigMgr &amp; Endpoint Protection you may renew into Windows Intune Add-on for ConfigMgr &amp; SCEP</li> </ul>

### If I purchase Windows Intune or the Windows Intune Add-on for ConfigMgr & Endpoint Protection under my Enterprise Agreement can I manage x86 PCs?

Yes. However, any x86 PC that is managed (either by ConfigMgr or Windows Intune) is a qualified device under the terms of your Enterprise Agreement and must be appropriately licensed.

### Will Windows Intune allow me to sideload applications onto Windows 8 or Windows RT?

Yes. However, it's important to remember that a separate sideloading key is required to sideload applications onto Windows 8 and Windows RT. This key does not come with the Windows Intune w/Windows SA subscription. [Click here](#) for more information.

### What new geographies are being added for Windows Intune?

Algeria	Egypt	Kuwait	Oman	South Africa
Argentina	El Salvador	Latvia	Pakistan	Sri Lanka
Azerbaijan	Estonia	Liechtenstein	Panama	Taiwan
Bahrain	Guatemala	Lithuania	Paraguay	Thailand
Belarus	Iceland	Macedonia (FYROM)	Qatar	Tunisia
Bulgaria	Indonesia	Malta	Saudi Arabia	Turkey
Croatia	Jordan	Montenegro	Serbia	Ukraine
Dominican Republic	Kazakhstan	Morocco	Slovakia	United Arab Emirates
Ecuador	Kenya	Nigeria	Slovenia	Uruguay
				Venezuela

### When can I buy Windows Intune in these new geographies?

The new per user licenses will be available for customers in new geographies to purchase via EA/EAS/EES beginning Dec. 1, 2012. Direct customers may purchase on Jan. 2, 2013. Customers will be provisioned on the new Windows Intune service after the GA. We recommend customers in these geographies wait to purchase until after GA of Windows Intune.

### When can I buy Windows Intune everywhere else?

The new per user licenses will be available for customers in existing geographies to purchase via EA/EAS/EES beginning Dec. 1, 2012. Direct customers may purchase beginning Jan. 2, 2013. Customers will be provisioned on the existing Windows Intune service and will receive the new features in early 2013.
