

Introduction to Microsoft Online Services and their licensing

Licensing Online Services

Microsoft's Online Services include:

- Windows 10
- Office 365
- Enterprise Mobility + Security
- Microsoft 365
- Dynamics 365

These services are typically licensed with User Subscription Licenses (User SLs) where a license is assigned to an individual, named user. This licenses the user to access the relevant service from any device.

Windows 10 and the Office 365 applications may typically be installed on up to 5 devices.

Buying Online Services

Customers may buy User SLs in the following ways:

Web Direct	Cloud Solution Provider program	Volume Licensing agreements
Purchased from Microsoft's website	Purchased through partners	Purchased through partners
Paid for upfront annually or monthly	Paid for upfront annually or monthly	Paid for upfront annually

Windows 10

Windows 10, the desktop operating system, may be licensed by device or by user, dependent on how the customer acquires their licenses, as shown in the table:

	Retail	CSP	Open	Open Value	Enterprise Agreement
